Education

- +2 science, Vishwa Adarsha college, Itahari , GPA:- 3.42
- Bachelor's in computer science and information technology, Samriddhi college, Lokanthali

Skills

- **Languages** : Typescript, Javascript, Python, C, SQL,
- **Frameworks** :
 - Javascript: React, Express, RTK, OAuth2.0, Prisma, JWT, axios, mongoose
 - Python: Langchain, Langgraph, FastApi
- **Database** : MongoDB, MySQL, PostgreSQL
- **Tools** : Git, Postman, Docker

Projects

Task Management System

Tech used: React, RTK, Express, MongoDB, JWT, axios, tailwind css, gemini

- Developed a Task Management System with full CRUD functionality, enabling users to manage tasks with properties such as title, description, status, priority, and due date.
- User authentication is done using JWT and data are stored in MongoDB database
- Github : [_task-frontend](#) | [_task-backend](#)

Quiz App

Tech used: React, RTK, Express, MySQL, Prisma, JWT, google OAuth, axios, tailwind css

- Developed a quiz application with an admin panel to create questions and a user interface for taking quizzes.
- Role based authentication using JWT and Google OAuth. Data stored in MySQL database.
- Github: [quiz-frontend](#) | [quiz-backend](#)

Chatbot

Tech used:

Python: Langgraph, Fastapi, pymongo

Javascript : React, RTK, axios, JWT, google OAuth, Express, mongoose

- Developed a chatbot where users can ask any question, and LLM will provide the response.
- Multiple chats can be created and responses are provided in the form of a data stream.
- conversation history is also stored.
